

Mosaic Heart Frame

Materials:

- Frame
- Holographic cardstock

Not included:

- Scissors
- Mod Podge or other glue

Instructions:

1. Use your scissors to cut out your desired shapes from the cardstock. Typical mosaics are a collection of random shapes and shards. Have fun with it!

2. Glue your cardstock pieces onto the frame, starting around the heart or a focal point and moving outward. It is easier to set a small section of shards, glue them down, and then move onto the next section.
3. Once you have everything in place, put your picture in the frame and love the results!
