July 30 ~ National Cheesecake Day, a day to treat yourself with a slice (or two) of this decadent dessert made of cream cheese, eggs, sugar, and a graham cracker crust.

Believed to have originated in ancient Greece, cheesecakes, whether baked or chilled, have become a restaurant and bakery staple around the world. There are many different regional variations of the cake. For example, the Germans use Quark and a freshly made pastry as the base for their version of the cake. In Brazil, on the other hand, cheesecake is served with a thin layer of guava jelly or marmalade.

How to Celebrate?

- With a big slice of cheesecake of course! Add some fruits to it, and you can claim that it is healthy!
- Bake a cheesecake at home and add new twists to the traditional recipe. Here are some ideas: replace the graham cracker crust by chocolate cookie crust, add bacon to the crust for a salty and smoky flavor, or replace the cream cheese with ricotta or goat cheese.
- Make a savory version of the cake for dinner and a sweet version for dessert.

In honor of National Cheesecake Day, many restaurants and bakeries have cheesecake specials on their menus. Take your family and friends out to try out one of these specials.

July 16 ~ Cool down with a scoop (or two) of refreshing ice cream on Ice Cream Day. Celebrated annually since 1984 on the third Sunday of July in the United States, the unofficial holiday celebrates everyone's favorite sweet treat.

The holiday was created by an official proclamation by President Ronald Reagan in 1984. At the time, the holiday was supposed to be only celebrated once - on July 15, 1984. The ice cream industry, however, decided to continue the tradition every year since. In addition to observing a National Ice Cream Day, the proclamation also designated July as National Ice Cream Month. This too has now become a tradition.

Chinese Origin

Traditionally made by freezing a mixture of cream or milk, sugar, and some kind of flavoring, ice cream is often eaten after a meal as a dessert or as a mid-meal snack. As a treat, ice cream has a long and varied history, though very little is known about its origins. Some historians believed that the Chinese were responsible for inventing the earliest versions of this dessert, while others suggest that the Romans mixed snow with honey and fruits to create the first prototype of ice cream. Either way, the early types of ice cream were nothing like the ice cream we are familiar with today.

Only for Royals

In the old days before refrigerators became common kitchen equipment, ice cream was a food reserved for the royals and the rich and it was only eaten during special occasions. The development of refrigeration technology quickly made ice cream a commonly enjoyed dessert around the world. Today, people can easily make ice cream at home with the help of portable ice cream makers.

How to Celebrate?

- Many ice cream parlors and stores have sales and specials on their products on this day. Visit one of them to celebrate this fun holiday.
- Have ice cream for all your meals. It can be considered as a nutritious food group for this one day. Tired of the usual vanilla or strawberry ice cream? Get creative with your flavorings. What about adding mint to your strawberry ice cream? Or bacon bits to your caramel ice cream?

Did You Know...

...that some studies have shown that people buy and consume more ice cream on a Sunday than any other day of the week?
